

## **COOKIES**

Cookies are small text files stored on your device when you access most websites on the internet or open certain emails. Among other things, cookies allow a website to recognise your device and remember if you've been to the website before. We use the term cookie to refer to cookies and technologies that perform a similar function to cookies (eg tags, pixels, web beacons, etc). Cookies can be read by the originating website on each subsequent visit and by any other website that recognises the cookie.

We use these to improve our user's experience of our website, temporarily store data and understand the parts of the website that users are visiting.

We use cookies in order to make our website easier to use and, to support the provision of information and functionality to you.

Cookies are also used to help us gather statistics on the use of our website anonymously, as well as to provide us with information about how the website is used so that we can make sure it's kept as up to date, relevant and error free as we can.

By using our website you agree to our use of cookies, including setting and reading cookies on your device. You can choose to restrict or block cookies through your browser settings at any time. For more information about how to do this, and about cookies in general, you can visit [www.allaboutcookies.org](http://www.allaboutcookies.org) and [www.youronlinechoices.eu](http://www.youronlinechoices.eu)

Whilst certain cookies may be set as soon as you visit a website, you can remove them using your browser settings – but this may impact the functionality or performance of the website. Please note that third parties (including, for example, advertising networks and providers of external services like website analysis services) may also use cookies, over which we have no control, although we may receive services from these third parties (including, for example, for targeted advertising purposes and website analytics).
